Re: Nexus, we have a problem.

I've tried for at least 2 days to post new threads, humorous banter, and things start to simmer down, and then low and behold in comes a new set of accusations to start the conflagration all over again. We either agree to just drop this damn subject, take some action to stop those who want to throw gasoline on embers, or probably better yet, all of us who are sick and tired of this crap, we take a weeks vacation and let you all slug it out and we can come back and see who is still here, if there is a forum, and then make some decisions from there, but for me, I personally say stop all chatter about forum politics now, because it seems obvious to me no one is getting banned, going to the naughty chair, but the most involved parties are going in circles. Please let me know what the decision is whoever is top dog within 12 hours.

I am not trying to be threatening or controlling, I just think it needs to stop now, and table this for a few days. People tend to see things differently when they quit staring at it for a while.

There was no "verbal.text" warning Céline why would you say there was?

No I wasn't ranting either, In fact you were the one "ranting" I have the logs to prove it! Will you give me permission to post these?

I vote that we all take a vacation. Drink it up, party, or whatever you like to do, but don't try to go somewhere where truth can't find you.

This has become the equivalent of sitting in a lunch room during a food fight and no matter where you go you keep getting hit with crap. You go to an unrelated thread or create an unrelated thread and someone follows you and throws more crap at you. I feel like going home and taking a shower and just not eating in the lunch room for a week or so until some people run out of food and/or move on.

Do not TWO witnesses demand a look into their claims? Is it truth we are after, or just a "good time"? If there is but a mistake that has been made, then so be it, but if someone is guilty of breaking the Golden Rule here, then for the sake of all of NEXUS, why not come forth? Re: Nexus, we have a problem.

Hunter,

what do you wish to look at?

what shall we investigate?

The admins.. mods.. have responded..

None of these answers suffice.

The only answer that will be good enough for you , is an answer that agrees with you.

This distraction is obvious...

and reminds me of old tactics..

You have taken much here.... what have you given?

If miss-information and falsehoods are posted about me don't you think I have the right here to address them?

And this is considered acceptable? Let's isolate that a bit, shall we?

But, I'm sure that's just a random coincidence, isn't it. 'The Jackal'. Cool. I think I'll use that from now on. Thanks guys!

More evidence of the reality of the pyramid:

"Real compassion kicks butt and takes names, and it is not pleasant on certain days. If you are not ready for this fire, then find a new-age, sweetness-and-light, soft-speaking, perpetually smiling teacher, and learn to relabel your ego with spiritual sounding terms. But stay away from those that practice real compassion, because they will fry your ass, my friend."
